

# GIFTED MOMENTS Energizer

*“Gifted Moments” is a lively activity centered on the delight of giving and receiving—sparking connections and igniting creativity among participants.*

## SUMMARY

*“Gifted Moments” weaves a dynamic mosaic of shared experiences, trading intangible gifts and stories of wonder. With each passing gift, imagination kicks in, fueling laughter and unity. This activity invites all to embrace the joy of giving and receiving, fostering playful vibes that kindle creativity in every heart.*

**Imagine this:** People gather in a circle, and one person kicks off the fun. With eager anticipation, the chosen giver presents an invisible gift to the person on their right. The receiver says, “Thank you” and, using their imagination, describes the gift (a hippopotamus, a fancy hat, a motorbike, for example).

But here’s where it gets exciting—the giver, quick on their toes, must explain why they picked this unique gift for the recipient. And there’s a rule: every gift must top the previous one (in size or sentimental meaning), igniting a wave of imaginative generosity.

The game goes on until everyone participates in the imaginative gift giving. Laughter fills the air, and bonds grow stronger as creativity flows.
